TURFSTAT™ PRO is a Hospital-Grade liquid Disinfectant, Sanitizer, Fungicide, Virucide & Mildewstat. Diluted in water and applied to synthetic turf fields using a boom-type sprayer attached to a motorized vehicle, or a pressurized pump system set to COURSE spray. Also can be spot applied with a hand-held pump sprayer.

TURFSTAT™ PRO is proven to kill germs on non-porous surfaces such as plastic (polystyrene, polypropylene, ...), vinyl, fiberglass, non-porous rubber and washable synthetic fibers. Compatible with materials used in the manufacture and installation of synthetic athletic turf and surfaces. No rinsing required.

- ⇒ Methicillin-resistant Staph (**MRSA**)
 - ⇒ Pseudomonas aeruginosa
 - ⇒ Trichophyton mentagrophytes (**Athletes' Foot Fungus**)
 - ⇒ Influenza A Virus (**H1N1 type**)
 - ⇒ E.Coli
 - ⇒ HIV-1
 - ⇒ Hepatitis (B & C)
 - ⇒ Herpes (Simplex Type 1 & 2)
 - ⇒ Streptococcus pyogenes (**Strep**)
- ** Please see full efficacy on separate attachment**

Outdoor application - apply only if rain is not expected for at least 8 hours.

Do not apply in windy conditions.

Concentrated solution for ease of use with a neutral pH at recommended dilution

**** Allow playing field to dry completely prior to use (2 hour minimum recommended)**
