- ✓ Smoke/Fire Damage Reclamation
- ✓ Metalworking fluids
- ✓ Solid & liquid waste treatment
- ✓ Garbage & Refuse
- ✓ Veterinary Services
- ✓ Septic Systems
- ✓ Portolets
- ✓ Boat Bilges
- ✓ Healthcare
- ✓ Nursing Homes
- ✓ Restaurant and Kitchen
- ✓ Skunk odor removal
- ✓ Petroleum/Hydrocarbon odor removal

DESCENTTM - Considerations for addition to formulations (*)

- Functional pH range 5.0 to 10.0
- Incompatible with strong acids & alkalis (EDTA, DPTA, NTA)
- Very soluble in Water
- Stable in the presence of “inert” salts (calcium/magnesium/aluminum oxides/phosphates/silicates)
- Incompatible with some cationics
- Compatible with nonionics and most anionics (anionic compatibility aided with the use of solvents such as IPA or glycol ether)
- For most applications use rate of 5% is sufficient

() always check specific formulations with your EDMAR Representative prior to manufacture*
