

ENDEW™

U.S EPA Reg#: 7048-8

Canadian P.C.P.#: 23612

**Mildewcide/Sanitizer
For textiles**

Endew™ is a highly concentrated liquid fabric sanitizer and mildewcide.

Applied during the final rinse, it imparts a self-sanitizing finish that **inhibits the growth of mildew, mold, and fungi for a minimum of 30 days.**

Regular use helps extend textile life by preventing discoloration, fabric deterioration, and strength loss caused by mildew growth, while reducing the need to discard colored garments due to permanent mildew staining.

PRODUCT BENEFITS

- Reduces mold/fungus count by a min. of 99.9%
- Kills odor-causing bacteria
- Prevents discoloration and pinholes
- Keeps working for 30 days or more

USE ON

- Table linens and napkins
- Athletic gear
- Bedding and blankets
- Uniforms
- Towels

APPLICATIONS

- Healthcare facilities
- Athletics
- Educational and childcare
- Correctional facilities
- Health clubs and fitness centers
- Hospitality and lodging
- Military and government facilities

APPLICATION INSTRUCTIONS

*Please see label for complete instructions

Endew is used in the final, warm rinse cycle at a low water level. Dilute the appropriate amount of Endew in one gallon of water; then add to the wash in the final rinse, or dispense directly through automatic dispensing equipment. Retreat as necessary. Endew will not harm fabrics. **Do not use in the presence of or mix with other chemicals.**
