EDMAR CHEMICAL COMPANY

PRO-TEX™

FOAMING HAND & SKIN SANITIZER

ALCOHOL-FREE FOAM SANITIZER

Pro-Tex™ Foaming Hand & Skin Sanitizer is a patented, alcohol-free foaming sanitizer formulated with Benzalkonium Chloride (BZK) to provide fast, effective skin sanitization. This FDA-compliant, non-flammable, water-based formula reduces ***Staphylococcus aureus*** **(Staph) on the skin by 99.9999% in as little as 15 seconds.**

Designed for convenient, leave-on protection, Pro-Tex™ requires no water, rinsing, or towels. The no-drip foam contains moisturizers and skin conditioners that help retain the skin's natural oils, leaving hands soft and not sticky. This helps reduce dryness, redness, and chapping. Regular use provides long-lasting antimicrobial protection.

Laboratory testing has shown Pro-Tex™ exceeds FDA standards for leave-on sanitizers, with efficacy that increases with repeated use.

NSF Registered (E2 & E3) and approved for food handling environments.

PRODUCT BENEFITS

- Non-flammable and alcohol-free
- Leave-on formula; no water needed
- Moisturizers help reduce dryness
- Light foam spreads easily
- Use as frequently as needed
